

RIVER SCHOOL

CREATING A CULTURE OF RESPECT

Concerned about educating the whole person
while teaching standards?

Interested in embedding character education
(responsibility and respect) into your school culture?

How can you build community into your school,
increase achievement and lessen bullying,
without another "add-on program?"

River School and Humboldt State University present
a Summer Institute on the Ho'āla Educational Philosophy.

Since developed in Hawaii in 1972, this philosophy has produced students who are self-motivated, care about each other, and learn to make choices that mutually serve themselves and their community.

WHEN: July 19-21, 2006

WHERE: River School, Napa, California

COST: \$200 / \$100 for students

(1 unit available through Humboldt State for an additional \$36)
